

RoofersCoffeeShop.com

You have one of the most active contractor based sites on the web; many of us have made it a part of our lives. We've even gone as far as to make the leap from cyberspace, doing projects together, and breaking bread in each others homes. What a rarity this MUST be. And there HAS to be a way to let potential advertisers know this ...

RoofersCoffeeShop.com

RoofersCoffeeShop.com GOES PUBLIC!

It's not just for roofers anymore. The newest in SEO – Search Engine Optimization technology – drives web searches to the RoofersCoffeeShop.com. It has one of the highest destination rankings for the roofing industry, ranked by the big three (Google, Yahoo and MSN).

With this SEO-optimization comes the added benefit of homeowners finding a profile about your

products, locate a roofer in their area and learn helpful information all while gaining impressions about your company through strategically placed advertising buttons.

COMPLIMENTING THAT is the rollout of our new ROOFER PROFILE Membership Drive. They get a detailed page properly listed on our directory on the RoofersCoffeeShop.com, while our new SEO technologies drive the correct geographical leads to their contact information or Web site. Other features are full use of our classified ads, and in the months to come we will be offering a new roofing resource library and many other value added features that help contractors utilize “the Net” more than ever before. With your RoofersCoffeeShop.com advertising make an impression with every visitor. We will be helping contractors get on the internet, develop a Web site, generate leads, be safe and trained, but mostly informed about your products and services.

Coming in 2009

Creation of the first Internet Roofing School, Video & Live Webinar. Once again providing contractors with educational tools while giving you the chance to capture the perfect audience.
