

Text 4 More Info

Need Leads? Make the Chase After You!

Text 4 More Info is a revolutionary way to generate leads. With over two billion text messages sent each day, why not create a mobile Web site that your potential customers can access by just sending a text. They get instant information about your products and services, and you get instant information about your prospect. Put this number on yard signs, billboards, print ads or anywhere you want to create a way for your potential customers to communicate with you.

text4more info How It Works

- 1 Add your GO CODE to your yard sign, ad, promotional materials, etc.
- 2 Potential Customers Text your GO CODE to 48696.
- 3 A text message will be sent to your potential customer with a link to your mobile Web site. Your Customer can then access your Mobile Web Page.
- 4 Simultaneously you receive a text and e-mail that your potential customer is on your mobile Web site.
- 5 Your prospect views your mobile Web site, which is optimized for any mobile phone. Gather contact information for a variety of uses.
- 6 Gaining leads from prospects genuinely interested in your product and services, means higher ROI, higher sale and bigger profits!
