

Welcome

We are often told we are the voice of the roofing industry. When you see the content in our publication and Web site you will see that the voice you hear is your own.

Our mission is to be a roofing advocate, putting information and communication at the roofers fingertips – to promote the positive growth, education and success of the roofing industry. Our unofficial mission is to provide contractors with terrific tools that meet the need for every resource they could ever want. Training, trading, talking, researching, and purchasing. To be where “the industry meets for coffee.” Our goal of being the hub of information in the roofing industry, a veritable yellow pages of everything roofing, is finally coming full circle and it’s now time for you to take advantage of the opportunities great and small that we offer. After all, how can we provide information about every product and service in the industry without your company included?

Sixteen years of hard work and commitment to the roofing industry has broken through the perception that we are just a throw away, with informative editorial content mostly written by roofing contractors themselves! The industry across the board agrees, the Roofers Exchange and RoofersCoffeeShop.com are resource tools that every contractor, distributor, and manufacturer should be using.

This industry by and large is still doing business the old fashioned way. We are here to help lead it into the 21st century. We will be helping contractors get on the internet, generate leads, communicate with each other and be safe and trained, but mostly informed about your products and services. We can offer your company amazing opportunities in print and online, through the paper, mailing lists, web advertising and webinar events.

Ask a roofer, ask your field rep, ask your competition – advertising with Roofers Exchange and RoofersCoffeeShop.com WORKS!
